## **GULF CORONAVIRUS COMMUNICATION**

18<sup>th</sup> March 2020

Dear Partners

### **Coronavirus (COVID - 19)**

As you are aware the global impact of Coronavirus (COVID-19) is unprecedented. The Gulf Oil International Group (Gulf) continues to monitor the rapidly evolving effect of COVID-19 both globally and within Gulf's own business environment. As always Gulf's priority remains the health and safety of its staff and contractors and of those of our customers and licensees.

Gulf wants to reassure you that we remain very much open for business. Gulf has a strong and resilient workforce and supply chain, and we do not currently anticipate any disruptions or delays in the supply of any of our products. Of course, the situation with COVID-19 is constantly changing and if supply chain conditions do deteriorate then Gulf will inform you accordingly. Gulf is well positioned to meet the challenges of COVID-19 and currently does not envisage COVID-19 impacting its ability to meet the needs of our customers and licensees.

In addition, Gulf has put in place contingencies to ensure we can continue to deliver our business during the COVID -19 crisis. These include robust methods for remote working where feasible and restrictions on all non-essential travel

However, Gulf fully recognises that the situation with COVID -19 is extremely demanding, and that many businesses are facing serious challenges. We want you to know that Gulf will work alongside its customers and licensees to provide all the help and assistance Gulf can during these very uncertain times. At the same time Gulf remains committed to providing you with the highest quality products and customer service.

Please contact your usual Gulf manager if you would like to discuss anything. Thank you for your continuing support and trust in Gulf.

Best regards

**Mike Jones**
